

# Summer Break from the Ordinary!

We are introducing a new line of electives for you to enjoy! These materials can be used for your summer program or other times of the year when you want a break from the basic curriculum.

*The Wish Your Heart Makes* is a 12-lesson study on the spiritual truths found in the popular movie *Cinderella*. Integrating clips from the movie into each lesson, along with scripture memorization, this study can be adapted to suit Bluebellies, Joy Belles, or the middle school ages. Girls will be led to consider that the greatest wish our heart makes is to be the beloved of our one true Prince . . . Jesus Christ. Lessons address topics such as bullying, the importance of dreams, the value of friendship, the influence of expectations, the power of self-control, and much more. Leaders and girls alike will be challenged by the unheralded and untapped biblical principles that can be gleaned from this old story. This study would be great for a mother-daughter group. *The Wish Your Heart Makes* is the first in a series of studies based on the Disney “princess” movies.

**Leader's Copy Price: \$5.00**  
**Student's Copy Price: \$5.00**

*Following the Narrow Road* is a five-lesson study on the biblical principles that can be gleaned from the movie classic, *The Wizard of Oz*. This study is adaptable for use with Little Sweethearts, Bluebellies, and Joy Belles. The girls will enjoy watching short clips from the movie while learning the importance of choosing to follow the “narrow road;” that God’s kingdom is not just “somewhere over the rainbow;” one of God’s greatest gifts is friends; and that His gifts of courage, wisdom, and love are given to us as we persevere through trials “of many kinds.” Object lessons and Scripture memorization make these lessons easy to remember and apply throughout the school year.

**Price: \$5.00**
